

# REBUILDING INFORMATION STATION

## Rebuilding Extravaganza

Saturday, November 1st  
Noon - 4 PM

Tulane University uptown campus  
Richardson Memorial Hall

Workshops for anyone involved in building or rebuilding a house

- \* learn how to strengthen your house against wind and water damage
- \* learn how to protect your pocketbook from soaring energy costs with information on energy efficient heating and cooling options
- \* visit our hands-on construction demonstration tents for "tricks of the trade" in replacing or repairing your roof, insulating your home, and properly installing windows and window protection
- \* browse our contractor registry to find licensed contractors for your rebuilding project

The Rebuilding Information Station provides information to assist homeowners in managing the various aspects of rebuilding hurricane damaged homes. The RIS is a collaborative effort of UNO-CHART, LSU AgCenter, Tulane City Center and The Road Home to create a diverse knowledge base that will help homeowners make decisions in the rebuilding process.
