www.LSUAgCenter.com/Rebuilding/Programs

Mitigation Mobile (40-foot vehicle with awning)
Audio/video equipment and the power to operate
Demonstration models, building materials and tools
Internet connectivity by satellite

Instructors and Professional Staff

LSU AgCenter extension educators answer questions and help homeowners learn how to incorporate energy efficiency and flood-, wind- and rain-resistance features into their homes. Content and length of programs can be adjusted to meet the needs of your participants.
