*** The marine, freshwater and oyster data presented here are for the year 2014 rather than 2015. Release of fisheries landings data by the collecting agencies occurs 4-5 months after the fact. Another reporting system was used in previous years, so this year's data are not directly comparable to that of previous years.*

*** The marine, freshwater and oyster data presented here are for the year 2014 rather than 2015. Release of fisheries landings data by the collecting agencies occurs 4-5 months after the fact. Another reporting system was used in previous years, so this year's data are not directly comparable to that of previous years.*

** The marine, freshwater and oyster data presented here are for the year 2014 rather than 2015. Release of fisheries landings data by the collecting agencies occurs 4-5 months after the fact. Another reporting system was used in previous years, so this year's data are not directly comparable to that of previous years.

*** The marine, freshwater and oyster data presented here are for the year 2014 rather than 2015. Release of fisheries landings data by the collecting agencies occurs 4-5 months after the fact. Another reporting system was used in previous years, so this year's data are not directly comparable to that of previous years.*

** The marine, freshwater and oyster data presented here are for the year 2014 rather than 2015. Release of fisheries landings data by the collecting agencies occurs 4-5 months after the fact. Another reporting system was used in previous years, so this year's data are not directly comparable to that of previous years.

** The marine, freshwater and oyster data presented here are for the year 2014 rather than 2015. Release of fisheries landings data by the collecting agencies occurs 4-5 months after the fact. Another reporting system was used in previous years, so this year's data are not directly comparable to that of previous years.

*** The marine, freshwater and oyster data presented here are for the year 2014 rather than 2015. Release of fisheries landings data by the collecting agencies occurs 4-5 months after the fact. Another reporting system was used in previous years, so this year's data are not directly comparable to that of previous years.*

** The marine, freshwater and oyster data presented here are for the year 2014 rather than 2015. Release of fisheries landings data by the collecting agencies occurs 4-5 months after the fact. Another reporting system was used in previous years, so this year's data are not directly comparable to that of previous years.

** The marine, freshwater and oyster data presented here are for the year 2014 rather than 2015. Release of fisheries landings data by the collecting agencies occurs 4-5 months after the fact. Another reporting system was used in previous years, so this year's data are not directly comparable to that of previous years.

*** The marine, freshwater and oyster data presented here are for the year 2014 rather than 2015. Release of fisheries landings data by the collecting agencies occurs 4-5 months after the fact. Another reporting system was used in previous years, so this year's data are not directly comparable to that of previous years.*

** The marine, freshwater and oyster data presented here are for the year 2014 rather than 2015. Release of fisheries landings data by the collecting agencies occurs 4-5 months after the fact. Another reporting system was used in previous years, so this year's data are not directly comparable to that of previous years.
