

**SUGARCANE RESEARCH**  
**ANNUAL PROGRESS REPORT**

**2015**

No part of this report may be reproduced in any form without giving the complete source of information.

This report is from 2015 only and should be regarded as preliminary. Complete research is reported in appropriate Louisiana Agricultural Experiment Station and Louisiana Cooperative Extension Service publications and/or other professional publications.

## FOREWORD

Research on sugarcane in the Louisiana Agricultural Experiment Station is an integral part of the LSU Agricultural Center's research-extension effort to provide the knowledge and technology base for efficient production and processing of sugarcane. Sugarcane research projects are led by scientists in the Sugar Research Station, Audubon Sugar Institute and the Department of Agricultural Economics and Agribusiness, School of Plant, Environmental, and Soil Sciences, Department of Biological and Agricultural Engineering, Department of Entomology, and Department of Plant Pathology and Crop Physiology.

Members of the Louisiana Agricultural Experiment Station maintain close working relations with colleagues in respective departments of the College of Agriculture and other colleges of the LSU Baton Rouge campus, the Louisiana Cooperative Extension Service, the Agricultural Research Service and Natural Resources Conservation Service of the USDA, the American Sugar Cane League, and the Louisiana Department of Agriculture and Forestry.

A major portion of the resources for production research is linked to the Sugar Research Station located at St. Gabriel, Louisiana. Processing research is linked to the Audubon Sugar Institute located at St. Gabriel, Louisiana. The Iberia Research Station helped to accomplish specific sugarcane research objectives in 2015.

Important parts of the 2015 research effort were conducted on cooperating farms and in cooperating factories. These activities are important and must be continued. The cooperation of individual growers in conducting field research projects and financial support from the American Sugar Cane League are gratefully acknowledged.

## TABLE OF CONTENTS

	<u>Page #</u>
<b><u>FORWARD</u></b>	<i>iii</i>
<b><u>2015 SUMMARY</u></b>	
Economic Importance of Louisiana Sugarcane Production in 2015 _____	1
Sugarcane Summary for Crop Year 2014 _____	4
<b><u>VARIETY DEVELOPMENT</u></b>	
An Overview of 2015 Activities in the LSU AgCenter Sugarcane Variety Development Program _____	7
2015 Photoperiod and Crossing in the LSU AgCenter Sugarcane Variety Development Program _____	12
Selections, Advancements, and Assignments of the LSU AgCenter Sugarcane Variety Development Program for 2015 _____	25
2015 Louisiana Sugarcane Variety Development Program Nursery and Infield Variety Trials _____	46
2015 Louisiana “Ho” Nursery and Infield Variety Trials _____	66
2015 Louisiana Variety Development Program Infield Trials _____	82
2015 Louisiana Sugarcane Variety Development Program Outfield Variety Trials _____	91
Sucrose Laboratory at the Sugar Research Station _____	107
LAES Sugarcane Tissue Culture Laboratory _____	108
The 2015 Louisiana Sugarcane Variety Survey _____	109
Maturity Characteristics of Florida Sugarcane Varieties _____	119
Performance of Florida Sugarcane Varieties in Louisiana _____	121
Yield and Fiber Content of High Fiber Sugarcane Clones _____	124
2015 Energy Cane Feedstock Development Activities _____	129
Distribution and Prevalence of Bru1, A Major Brown Rust Resistance Gene, in the Sugarcane World Collection _____	135
<b><u>ENTOMOLOGY</u></b>	
Mexican Rice Borer Oviposition Preference and Larval Survival on Conventional and Bioenergy Crops _____	146
Aerial Insecticidal Control of the Mexican Rice Borer _____	147
Mexican Rice Borer Infestations in Louisiana Sugarcane _____	149
Mexican Rice Borer Range Expansion in Louisiana _____	151

## **PLANT PATHOLOGY**

Pathology Research \_\_\_\_\_ 154

## **WEED CONTROL**

Weed Management and Biology Research in Sugarcane \_\_\_\_\_ 160

## **CULTURAL PRACTICES**

Billet Planting Research \_\_\_\_\_ 163

## **SOIL FERTILITY**

Sugar Crops Production Management Research At The Iberia Research Station \_\_\_\_\_ 175

Nitrogen Management Research in Louisiana Sugarcane Production Systems \_\_\_\_\_ 179

Research on Soil Fertility and Cultural Management Practices in Sugarcane Production \_\_\_\_ 184

The Effect Of Sulfur Fertilizer On Sugarcane Yield \_\_\_\_\_ 193

## **ECONOMICS**

Sugarcane Production Costs in 2015 \_\_\_\_\_ 198

Determination of Optimal Sugarcane Crop Cycle Length \_\_\_\_\_ 200

## **PLANT GROWTH REGULATORS**

Sugarcane Ripener \_\_\_\_\_ 202
