Tongue Burn Cooler

Description:

This invention is a new product that completely eliminates the burning sensation from consuming spicy foods and hot sauces. It can be produced in either tablet or liquid form and should be taken right after consuming a spicy dish. With this technology, you can take the bite out of your next bite to eat and enjoy a wider range of hot foods and flavors.

Advantage:

- Relieves pain from spices
- Promoted consumption of spicy foods and drinks

Commercial Uses:

- Tongue cooler
