## Natural Drug Solubilizing Extract

**Inventor:** Zhijun Liu

### **Description:**

This new group of compounds uses natural extracts to increase the solubility of drugs. Unlike other solubility enhancing compounds, these will work on molecules of any size and will not slow down the speed at which drugs enter circulation and move through the body. In addition, the unique properties of these compounds may allow other chemicals to be used for treatment of cancers and other terminal diseases.

### **Advantage:**

- Works on a wide range of compounds
- Allows faster delivery of drugs
- Can work on molecules of any size
- Allows use of preciously insoluble compounds

### **Commercial Uses:**

- Solubilize pharmaceuticals
- Antiangiogenic agent

**LICENSED**
