

SUGARCANE RESEARCH

ANNUAL PROGRESS REPORT

2023

No part of this report may be reproduced in any form without giving the complete source of information.

This report is from 2023 only and should be regarded as preliminary. Complete research is reported in appropriate Louisiana Agricultural Experiment Station and Louisiana Cooperative Extension Service publications and/or other professional publications.

The LSU AgCenter and LSU provide equal opportunities in programs and employment.

FOREWORD

Research on sugarcane in the Louisiana Agricultural Experiment Station is an integral part of the LSU Agricultural Center's research-extension effort to provide the knowledge and technology base for efficient production and processing of sugarcane. Sugarcane research projects are led by scientists in the Sugar Research Station, Audubon Sugar Institute and the Department of Agricultural Economics and Agribusiness, School of Plant, Environmental, and Soil Sciences, Department of Biological and Agricultural Engineering, Department of Entomology, and Department of Plant Pathology and Crop Physiology.

Members of the Louisiana Agricultural Experiment Station maintain close working relations with colleagues in respective departments of the College of Agriculture and other colleges of the LSU Baton Rouge campus, the Louisiana Cooperative Extension Service, the Agricultural Research Service and Natural Resources Conservation Service of the USDA, the American Sugar Cane League, and the Louisiana Department of Agriculture and Forestry.

A major portion of the resources for production research is linked to the Sugar Research Station located at St. Gabriel, Louisiana. Processing research is linked to the Audubon Sugar Institute located at St. Gabriel, Louisiana. The Iberia Research Station helped to accomplish specific sugarcane research objectives in 2023.

Important parts of the 2023 research effort were conducted on cooperating farms and in cooperating factories. These activities are important and must be continued. The cooperation of individual growers in conducting field research projects and financial support from the American Sugar Cane League are gratefully acknowledged.

TABLE OF CONTENTS

	<u>Page #</u>
<u>2023 SUMMARY</u>	
Sugarcane Summary for Crop Year 2023 _____	1
<u>VARIETY DEVELOPMENT</u>	
An Overview of 2023 Activities in the LSU AgCenter Sugarcane Variety Development Program _____	6
2023 Photoperiod and Crossing in the LSU AgCenter Sugarcane Variety Development Program _____	12
Selections, Advancements, and Assignments of the LSU AgCenter Sugarcane Variety Development Program for 2023 _____	23
2023 Louisiana Sugarcane Variety Development Program Nursery and Infield Variety Trials _____	42
2023 Louisiana “Ho” Nursery Variety Trials _____	60
2023 Louisiana Variety Development Program Infield Trials _____	70
2023 Louisiana Sugarcane Variety Development Program Outfield Variety Trials _____	78
Sucrose Laboratory at the Sugar Research Station _____	107
LAES Sugarcane Tissue Culture Laboratory _____	108
The 2023 Louisiana Sugarcane Variety Survey _____	109
Performance of Florida Sugarcane Varieties in Louisiana _____	120
Stalk Cold Tolerance of Commercial Varieties at Ardoyne Farm During the 2023-2024 Harvest Season _____	125
<u>ENTOMOLOGY</u>	
Varietal Resistance to the Sugarcane Borer 2023 _____	131
Insecticidal Control of the Sugarcane Borer 2023 _____	133
Mexican Rice Borer Expansion in Louisiana _____	134
Efficacy of Soil-Applied Insecticides for Control of Sugarcane Wireworms, 2023-2024 _____	136
Evaluation on In-Ground Baits for Collection of Sugarcane Wireworms 2023 _____	138
<u>PLANT PATHOLOGY</u>	
Sugarcane Pathology Research - 2023 _____	139
Nematology Research _____	142
Genome-Wide Association Study to Identify Molecular Markers Associated with Sorghum Virus Resistance in Louisiana Sugarcane _____	145

WEED CONTROL

Sugarcane Weed Management	150
---------------------------------	-----

SOIL FERTILITY

Research on Soil Fertility in Sugarcane Production	152
Nitrogen Management Research in Louisiana Sugarcane Production Systems	157

ECONOMICS

Sugarcane Production Costs in 2023	162
Determination of Optimal Sugarcane Crop Cycle Length In 2023	164

PLANT GROWTH REGULATORS

Sugarcane Ripeners	166
