

Extension agents, NRCS agents, trainers, consultants, producers, and interested persons:

Please Join Us For A Workshop!

Sustainable Row Crop Irrigation Management in Louisiana

Workshop includes:

- In-person presentations by LSU AgCenter/NRCS/SU experts on agronomic, engineering, and economic best management practices in furrow irrigation of row crops
- Access to narrated and unnarrated presentations for further review/use in your own educational programs
- Access to evaluation materials to gauge feedback from your audience
- Farmer panel
- Invited vendors
- Hotel expenses and free lunch!
