

Science, Engineering and Technology

Section 3

In this section, you will learn about:

- Aerospace
- Entomology
- Home environment
- “Farm to fork”
- Plants
- Forestry

The 4-H science, engineering and technology programs, sometimes called SET, will prepare you for the challenges of the 21st century. These projects will provide hands-on learning experiences for you to discover about aerospace, entomology, home environment, plants, forestry and many others.
