

Economic Contribution of Forestry and Forest Products

on St. John the Baptist, Louisiana

The forest products industry contributes to each Parish economy in a number of ways ranging from jobs, wages, and purchases in local economies to local, state and federal taxes.

Additionally, the purchase of goods and services by the forest products industry and its employees spurs economic activity in other sectors of the economy resulting in a substantial cumulative economic contribution.

The forestry and forest products industry in **St. John the Baptist Parish**, Louisiana, had a total economic contribution amounting to **approximately 61 jobs and \$1,046,332 in income** during **2015**. Forestry and the forest products industry generated an **output of \$4,840,180 in this parish**. Total industry output is defined as the value of all goods and services produced in the parish. **Value added amounted to approximately \$2,060,205**. Value added represents the creation of new wealth and is inserted into the economy through payments made to workers, interest, profits and indirect business taxes.

The forestry and forest products contribution to the Louisiana economy are summarized in the right column and detailed in **Table 1**.

These results were obtained using Impact Analysis for Planning (IMPLAN), an input-output model. Input-output analysis can track how the inputs of one sector of the economy are the outputs of other sectors. This can illustrate a sector or group of sectors' importance to the overall economy.

St. John the Baptist Parish

Jobs
61

Output
\$4,840,180

Income
\$1,046,332

Value-Added
\$2,060,205

Federal tax total
\$269,559

State tax total
\$140,421

Output	\$3,856,543	\$580,792	\$402,845	\$4,840,180

Table 1. Contributions from Forest-Related Sectors on Employment, Labor Income, Output and Total Value Added in St. John the Baptist Parish, Louisiana (2015).

	Employee Compensation	Proprietor Income	Tax on Production and Imports	Households	Corporations	Totals
Federal Tax	\$108,442	\$2,298	\$14,501	\$73,923	\$70,395	\$269,559
State and Local Tax	\$1,972		\$106,194	\$28,231	\$4,024	\$140,421

Table 2. Tax Contributions from the Forest Sector

Glossary:

Employment: Number of full- and part-time employees in the chosen industries and the jobs created in the rest of the economy by the chosen industries.

Labor Income: Includes wages, salaries and benefits of employees as well as income for self-employed individuals.

Output: Represents the value of industry production.

Value Added: The difference between an industry's total output and the cost of its intermediate inputs.

Direct Effects: Refers to the sector's own production, value-added, employment and labor incomes.

Indirect Effects: Refers to the economic activities in other sectors by the forest sector's purchase of goods and services from those other sectors.

Induced Effects: Refers to spending by employees from the forest sector on goods and services, such as groceries and gasoline.
