- *Maintain political and economic climate in East and West Feliciana parishes that is conducive to the development and intelligent use of forest resources.*

The “Voice of
Forestry in
the
Felicianas”
FFA

FFA Mission Statement

Our Association's Members are landowners, forestry professionals, and others who promote the intelligent management of forest lands. Feliciana Forestry Association provides education and awareness through workshops, field days, and news letters.

Our members want to preserve our forests for future generations. We believe maintaining and replanting trees is beneficial to the individual landowner and to the community as a whole. Forests provide us with an escape from the rigors of our fast-paced society. They promote wildlife, recreation, and beautification in the Felicianas. Trees are a source of income for the tree farmer, and forestry professionals. We believe forest conservation and educated utilization are worthy goals. If you agree, please join FFA and take advantage of our educational opportunities and fun outings!

What is FFA?

Feliciana Forestry Association is a non-profit organization formed in 1995. The purpose of FFA is to serve as the "Voice of Forestry" in East and West Feliciana Parish. Our association's membership is open to any person, firm, corporation, or organization interested or engaged in ownership, conservation, protection, development or use of timber and forest products. We are the largest parish forestry association in Louisiana. New members are always welcome to help us promote better forest management and utilization as well as enjoyment and appreciation of our Feliciana forests.
