

BEE A PART OF OUR SURVEY!

WHAT IS IT?

We are doing a two-step survey to understand the current *Varroa* mite check preferences of Louisiana beekeepers.

HOW DOES IT HELP YOU?

The results of this survey better equip LSU and the USDA to keep you informed of pest- and disease-management techniques.

WHO IS RUNNING IT?

The LSU AgCenter Department of Entomology is partnering with the USDA honeybee lab. The primary contacts are Dr. Kristen Healy (khealy@agcenter.lsu.edu) and Dr. Hannah Penn (hpenn@agcenter.lsu.edu).

WHO CAN PARTICIPATE?

Any individual over 18 years old who manages at least one hive.

HOW DO I LEARN MORE AND SIGN UP?

To learn more, please email Hannah Penn (hpenn@agcenter.lsu.edu) or go to the survey website (<https://bit.ly/2KeKpJc>). You can sign up online or by using the QR code below.

ARE THERE ANY RISKS INVOLVED?

We will need your contact information if you wish to receive your mite-check kit, take the second part of the survey and have your bees tested in the fall. Normal risks of beekeeping may also apply.
