¹ The following document is intended for use by forest stakeholders in Louisiana. **The source of these prices is proprietary in nature and rounded per agreements to disseminate to the public. Therefore, I add percentages so the reader will know if prices are up/down/flat.** The prices I report are also state averages. I recommend using this document and those produced by Louisiana Department of Ag and Forestry to aid in decisions about purchases, sales, and

determining harvesting schedules. As always, communicate with a **consultant forester** on prices before executing contracted agreements with wood buyers.
