What is the Master Cattleman Program?

The Louisiana Master Cattleman program began in the summer of 2004. The course includes 10 three-hour lectures on all aspects of beef production. It is a commodity-specific program to enhance the profitability of beef producers by equipping them with important information on all aspects of beef production. The program will be provided statewide in various multi-parish areas. It will allow participants to add farm management/marketing components related to beef production. Upon completion of the Master Cattleman program, participants should be better able to increase farm profitability while being environmentally sustainable.

The Master Cattleman Program curriculum consists of 10 three-hour blocks including:

- Animal Handling
- Animal Health/Biosecurity
- Beef Quality Assurance
- Nutrition
- Reproduction
- Breeding and Selection
- Pasture Management
- Weed Control in Pastures
- Economics and Marketing
- End Products
